# WHAT IS RAW PHOTOGRAPHIC ?

*RAW Photographic* was setup by two professional photographers, Samuel Cox and Sophie Brown, with an objective to put together affordable photographic trips for passionate photographers and nature enthusiasts in the best wildlife hotspots and havens of Southern and Eastern Africa. Working closely with partners in photography, nature reserves and conservation organisations across Africa, we're in a key position to be able to open the doors and make the Africa we fell in love with decades ago accessible to as many people as possible.

We offer a whole host of packages aimed to develop and nurture wildlife photographers whilst giving them unforgettable experiences and memories. We cater to all manners of photographic experience from those who have never touched a camera before to working with other professionals – the aim is always the same, let's inspire each other and have a great time whilst doing so!

Our love for wildlife photography and other photographers is at the core of every discussion we have when developing any product. As such, all our photographic safaris and workshops have different focuses and themes so that there's something for everyone. However, they're not restricted to just photographers; we've had plenty of guests with no desire to hold a camera, and they've equally had fantastic experiences time and time again.

**FOR ANY AND ALL ENQUIRIES PLEASE CONTACT US AT [INFO@RAW-PHOTOGRAPHIC.COM](mailto:INFO@RAW-PHOTOGRAPHIC.COM)**

# MEET THE TEAM

## SAMUEL COX

### FOUNDER + LEAD PHOTOGRAPHIC GUIDE

Sam has been a professional photographer for over a decade, starting off locally in England with wedding photography. His lifelong love for Africa eventually had him move out and take on the role of teaching and managing photography projects in the Greater Kruger region of South Africa. He's seen his images and writing published in National Geographic, Africa Geographic, BBC Wildlife Magazine, Travel Africa and more.

Sam's core belief is that great photography is not hard to come by, but meaningful photography is, and his aim is to teach photographers the potential importance and impact their images can have in aiding and assisting the health and growth of our natural biosphere.

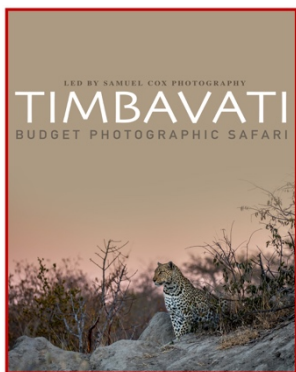

## SOPHIE BROWN

### LEAD PHOTOGRAPHIC GUIDE

Sophie is captivated by the unique diversity that African wildlife has to offer and is passionate about using the art of photography to showcase this. Her aim is to teach photographers the importance of impactful imagery, whilst sharing some of the experiences that caused her to fall in love with Africa years ago. She has seen her images published in Africa Geographic, BBC Wildlife Magazine, Klaserie Chronicle and more.

Sophie's love for wildlife has led to her moving to the Greater Kruger area of South Africa where she has been teaching conservation wildlife photography to international guests since 2018, providing photographers of all abilities a platform to develop their skills and educate them on an ethical approach to photography that can support wildlife conservation.

# PHOTOGRAPHIC SAFARIS

## TIMBAVATI BUDGET PHOTOGRAPHIC SAFARI

JUNE 8<sup>TH</sup> – 13<sup>TH</sup>

# BESPOKE TRIPS

A PHOTOGRAPHIC EXPERIENCE  
TAILORED TO YOU

**Looking for something unique for  
your travel and photographic  
needs?**

**Do you have a group that are  
looking for something specific?**

**We offer holistic and bespoke trips,  
tailored to your wants and needs  
including location, duration and  
budget.**

**Perfect for families, groups and  
clubs.**

**Grab your cameras and join us.**

Whilst we have the aforementioned photographic safaris listed, we also specialize in arranging bespoke trips for clients and guests in South Africa, Kenya and Tanzania, with upcoming plans to incorporate more countries such as Namibia, Botswana and Zimbabwe.

We want to make sure your trip is perfect for you, so if you have specific needs or wants for your trip, which we are not facilitating elsewhere, please don't hesitate to get in touch and we can plan something bespoke and perfect for your needs.

Like with all trips, a minimum number of guests and notice period is required to organize and run any trip, but these will vary depending on the circumstances of your trip.

We are already facilitating some bespoke trips in 2021, so get in touch as soon as possible to make sure you don't miss out on your exclusive experience!

# WORKSHOPS AND SEMINARS

Aside from running workshops on wildlife photography in Africa, one of our aims is to provide focused seminars and workshops locally in the United Kingdom. With the wealth of knowledge and experience from our team, we're reaching out to various camera clubs, universities, schools and other venues to host discussions and talks on wildlife, photography and conservation.

We will also be putting together short, day-long, workshops in various locations for photographers to get together, learn and have fun together. These will include bird photography, and we'll cover the ever-popular themes of creative composition, storytelling, working with light, freezing action and more.

We're also looking to promote the seminars and workshops our partners are offering, which we will host on our website and advertise via social media so as many people can participate as possible.

Currently, our own seminars and workshops are still being planned. However, make sure to subscribe to our newsletter on our website, and follow us on social media, and we will update you when we have venues and plans in place.

# TRAVELLING IN 2021

Naturally, there are a lot of concerns regarding travel given the recent Covid-19 pandemic and subsequent travel bans and restrictions.

We want to assure all our guests that our trips are designed to look after them. Safety is our number one priority, especially when working with wildlife, and being able to provide the high standard of experience whilst adhering to strict safety protocols is something that we and our partnering lodges and reserves strictly adhere to.

As such, there will be limits to the amount of guests that can be on any vehicle or inhabiting any lodge at a time. Face masks and hand sanitizing will more than likely be the norm for quite a while, but we're confident that, despite these regulations, we will be able to offer memorable and life changing experiences and photographic opportunities to guests at early as June 2021.

Our terms and conditions for all trips have been updated to incorporate and cover any issues, complications and restrictions that have arisen due to the Covid-19 pandemic. This is done for the wellbeing and safety of all our guests, hosts and partners – to again, further ensure that safety is our number one priority for everyone. Our full terms and conditions are sent as a separate PDF document to guests upon enquiry.

As always, if there's any questions or concerns related to travel and our trips, please do not hesitate and we will answer quickly and honestly.

# BOOKING TERMS AND CONDITIONS

In order to fully book a trip, please contact us via our email address ([info@raw-photographic.com](mailto:info@raw-photographic.com)), or on our website via the *Enquire Now* button on our *Photo Safari* page or through our booking form on the *Contact Us* page.

We will get in touch and supply you with our Terms & Conditions and a Registration Form, which must be filled in, signed and returned to us before we can finalize your booking. This includes details such as medical and dietary requirements, so information must be accurate and honest.

A 40% non-refundable deposit is due within 14 days of booking. This payment must be done via bank transfer.

At this point, your booking is held up until 8 weeks before departure of your safari, by which time you need to have paid the remaining amount. If payment has not been made at this time, RAW Photographic reserves the right to cancel your booking to open the space for another potential guest.

Once final payment has been made, we will confirm your position on our safari and communicate further details of the trip as they need arises. Other than that, it's a case of waiting and we look forward to seeing you in Africa!

The full list of our Terms and Conditions will be sent to you upon enquiry of booking. It's important that the terms and conditions are read, as by signing the Registration Form you confirm that you've read and agreed to all that's listed.

# OUR PARTNERS

We've been lucky and fortunate enough to have formed professional relationships with a host of extraordinary people, photographers, business and organisations that align with our views and ethics in the realm of nature, photography and conservation.

From workshops and trips to publications and education, we support and work with the list to the right to help make sure their positive efforts are being seen and felt by as many as possible.

# OUR AMBASSADORS

Over the years we've met and worked with some fantastic photographers and artists who we aim to carry on supporting, developing and working with in the future. One way in which we're able to do this is through our ambassador scheme, where we mentor, guide and uplift photographers who want to change their passion into career.

We help build their own individual and unique brand and mentor them on how to setup and run their own photographic trips that carry a conservation underlining. Click through to their portfolio or website and support the amazing creativity and work that they do, we can't wait to see how their futures progress and to be a part of it!

# FREQUENTLY ASKED QUESTIONS

## *How do I know if a trip is right for me?*

Our trips are great for anyone with a love for photography, but we do cater specifically for amateurs and those wanting to learn. If you're still unsure, get in touch and we can talk more in depth about what would make a safari great for you.

## *Is it safe to travel?*

We specifically targeted mid-2021 to start running trips to allow as much time as possible for the world to recover from the effects of Covid-19. There are protocols put in place throughout your entire trip, in line with government and official demands, to ensure that safety for everyone involved is the utmost priority. As things change over time, we will adapt and update our protocols and the information we give to our guests. Once again, if you're still unsure, please get in touch so we can discuss this with you more in depth.

## *How much is my deposit?*

Your deposit is 40% of the inclusive cost of your trip, as advertised. So for example, if a trip is running at £3,000 per person, the deposit would be £1,200 per person. This will need to be paid within 14 days of booking and is non-refundable unless the trip is cancelled from our end.

## *What payment method do you accept?*

Currently we can only accept payment as a bank transfer to a UK bank account.

## *Should I bring a laptop? And do I need editing software?*

A laptop with editing software is ideal for our trips, as we do cover cataloging and editing photographs as part of the workshop. We recommend you download and install **Adobe Lightroom Classic**, as that's the specific software we will be using, but we can accommodate those without a laptop or editing program, but it's still recommended to ensure you get the most out of your trip.

## *Can a non-photographer join our trips? Will they enjoy it?*

Even though we run specialized photographic safaris, we also accommodate those with no knowledge or interest in photography. We believe in putting experience above all else, so any non-photographers will still have a great experience.

## *How much should I tip?*

Tipping / gratuities is not included in the cost, as it needs to be cash in order to be equally split amongst the lodge staff that look after you during your stay. Whilst there's no set number for a tip, we recommend a minimum of R1000 per guest. This money will be given to the lodge manager at the end of your stay, to be distributed afterwards.

# KEEP UPDATED

Our trips and offerings in this brochure are only a small component of what we offer, and as time goes on, we plan to advertise more diverse trips with exciting new locations.

Make sure to follow us on social media for doses of African wilderness and updates on what we're doing and planning for the future. You'll see sneak peaks of accommodation and safari experiences as well as beautiful wildlife photos and tips and hints on how to improve your own photography!

YouTube is also going to be a new thing for us, as we want to more visually engage with people in how we share information, stories and experiences, so make sure to head on over and subscribe for future content!

You can find all the relevant links and handles below.

**This is a very exciting time for us, and we hope you can join us on this new venture!**
